

DISCUSSED PETITION OF PLAYERS

At Joint Meeting of Baseball Committees—Friction Probable in Only Four Demands—Meeting With Representatives of Fraternity to be Open—Knabe Will Manage Baltimore Federals.

Cincinnati, O., Jan. 5.—After taking up the requests of the Baseball Players' Fraternity one by one and discussing them thoroughly, the national baseball commission and the committee from the national association of minor leagues adjourned tonight ready to present a solid front when the committee of players present their case tomorrow.

No announcement was issued as to what demands had been conceded or denied, but on good authority it was stated that not more than four of the demands will cause any friction at tomorrow's meeting. Probably the most important announcement was that the meeting tomorrow would be open to both public and press. Many believe that this augurs well for the players. It was announced previous to the joint meeting that the only request to which the minor leagues objected was the one that asks that ten days' notice be given players before their release.

There are several requests which the majors do not favor, but just what these are the major league officials refused to divulge. Before the joint meeting the national commission was in session most of the day. Chairman August Herrmann and Secretary R. B. Struve were selected and both submitted their annual reports.

Secretary Bruce reported that the total money handled by the commission from all sources, including the players' franchise fees, amounted to \$855,568.28. Three thousand seven hundred and twenty-five dollars and stamps were handled during the last year, while 125 bulletins were promulgated, 1,133 letters and telegrams were sent out. The announcement that Knabe had signed a Federal league contract to manage the Baltimore team came as a decided shock to the majority of the baseball magnates. Several refused to believe it, while others voiced the opinion that there would be a different story to tell when the time came for putting up the money.

President Robert Hodges of the St. Louis Americans said: "The best that they can hope for is to place one big league on each of their teams, and if they hope to draw the patronage away from the two big leagues, they must be prepared to pay a price which will be a fair one. I have an opinion to the contrary. It has been reported that they have taken three of my players away, but as yet I have seen no signs of their leaving."

The commission and a number of the magnates present will tender a dinner to Governor Tener tomorrow evening. The commission from the Baseball Players' Fraternity is expected here early tomorrow and the joint meeting of this committee with the national commission and the committee from the minor leagues will be called at 11 o'clock.

A few weeks ago McGill purchased the Indianapolis American association club and announced Hendricks would manage it.

A BASEBALL SERIES FOR ALL-STAR TEAMS.
Best of Major League Talent to Play at Exposition.

A series of baseball games between all-star teams to be selected by popular vote from the ranks of players in the National and American leagues will probably be played in San Francisco next year. The officials of the Panama-Pacific exposition will back the proposition and make formal announcement of the plan when the details are completed. This is a deviation from the original plan to bring together the teams competing in the world's series of 1915 in a second competition in November. The change is due to pressure upon exposition authorities to stage a contest which has often been suggested, but never put into actual operation.

Selecting all-star teams is a popular amusement among the fans at the close of each baseball season, and endless argument and discussion follows as to what would occur if these combinations were to meet on the diamond. When the announcement was made regarding the baseball plans of the exposition authorities they were immediately requested by a number of enthusiasts to give the all-star series preference. It was pointed out that the repetition of the world's series play would be at best an anti-climax, whereas the matches suggested would combine both novelty and new talent. The proposition appealed to the officials and will be adopted if a satisfactory method of selecting the players to compose the teams can be evolved.

Several plans are under consideration, but nothing definite will be decided until James E. Sullivan, chief of the department of sport, has conferred with Presidents R. B. Johnson and John Tener of the American and National leagues, respectively.

To Develop Forward Pass.
A new gymnasium is under considerable benefit to football players in these days of open and forward pass tactics has been evolved by Maurice Kent, assistant football coach at the University of Iowa. The game is played with a football, but resembles basketball. In that the forward pass is thrown through hoops at each end of the gymnasium floor. The idea of the game came as a result of observation which disclosed the fact that football men who had played basketball were as a rule much more efficient in the use of the forward pass than those who had no experience at the indoor game.

CHEER LEADER IMPRESSED.
An English writer, in describing a Yale-Harvard baseball game played at Soldier's Field, gives a new and picturesque view of the slugging contest as seen by foreign eyes.

"At the crisis in the fortunes of the game, the spectators in the bleachers and important part. The Athletic Committee appoints a 'cheer leader' for the occasion. Every ten minutes this gentleman, a big, fine figure in white, springs out from his seat, and, holding a megaphone with a 'One! Two! Three!' in his hand, and with a wild, swinging arm, leads the cheer leaders, conducts ten thousand voices in the Harvard yell. That over the game, the cheer leader, who sits quietly waiting for the next moment of peril or triumph, is not easily forgotten. He is, in the sunshine, conducting with his whole body, passionate, possessed by a demon, holding the crowd in his inspiration from side to side, conformed, rhythmic, ecstatic. It seemed as if the whole stadium were in motion, and the whole just a trifle fantastic."

"Completely friendly and befriended as I was, I couldn't help feeling at moments very alien and very, very odd—more so, perhaps, than the contracted game had ended in a victory for Harvard, when the dusty plain was filled with groups and groups of men dancing in solemn harmony, and a shouting crowd broken by occasional individuals who could not find a little entrance to lead a Harvard yell from, and who conducted the by-standers and then vanished, and the crowd swirled on again."

Paddon Challenges Barry for Title.
Paddon, the holder of the Australian professional sculling championship, has challenged Barry, the world's title holder, for a match on the Thames, England, next September. Paddon, who weighs 200 pounds and is 5 feet 4 inches tall, has deposited \$500 of his \$2,300 side stake. Barry was previously challenged by W. Albany for the championship and \$1,000 a side. This challenge Barry refused to meet, the stakes were increased to \$2,500, and an awkward state of affairs has arisen. The rules governing the championship were drawn in Australia and provide that a match between two men of the same country may be sculled for \$1,000 a side. Barry refuses to acknowledge the Australian provision, and Albany states that he intends to claim the title at the expiration of the year if his challenge is not accepted.

Northwestern university claims to possess the tallest athlete engaged in variety sport competition in the person of Ilva Van Dyke. He is 7 feet 3 1/2 inches and is a candidate for the basketball team.

"Sherlock Holmes" Awheel.
Because the motorcycle is cheap, durable, economical and effective, and meets a popular demand, Sir Arthur Conan Doyle believes that the future possibilities of the single tracker are almost unlimited. The noted creator of Sherlock Holmes predicts that the next few years will see a great revolution in the means of locomotion. Sir Arthur is himself an ardent motorcyclist, and enjoys no sport more thoroughly than an early morning spin on his motorcycle.

Motorcycle Shows.
It is estimated that more than 4,000 persons attended the first exclusive motorcycle show ever held in St. Louis. The exhibition was held Dec. 15, 16 and 17 in the club rooms of the Motorcyclists' club of St. Louis and the large attendance evidenced the keen interest taken in motorcycles in that section. The success of this year's show was much greater than the first, and many of them coming awheel.

SPORT NOTES.
Eddie Mahan, the Harvard variety halfback, is becoming an ardent admirer of hockey.

Arthur Devlin is reported to have failed as manager of the Oakland, Cal. ball club because of a disagreement with the directors.

Dick Cosman, who is to manage the Paterson team in the Eastern league, formerly the New York and New Jersey league, has signed up ten players.

The blues' committee of Oxford university has developed the same average of "beastly" games that is evidence in other quarters of English athletics.

Pitcher Parsons, late a pitcher in the American association, is Minnesota's new baseball coach. Baseball in Gosherland is now due for a revival.

Wisconsin riders are considering forming a state federation for motorcycle clubs to work in conjunction with the Federation of American Motorcyclists.

Atlanta of the Southern league is planning to build a new \$15,000 grandstand before the opening of the season. And some folks say a pennant winner doesn't pay.

The Cleveland fans are still on Griffith's trail. The Old Fox recently said that the 1914 pennant race will be between Philadelphia, Washington and Boston, and he left out the Naps.

At last Frank Baker, the hard hitting third sacker of the Athletics is being classed a good fielder. Several scribbles are touting him as one of the best fielding third basemen in the league.
